A2

storage holder 207--.

IN THE CLAIMS:

10 5. (AMENDED) The apparatus according to Claim 1, wherein the interchangeable
rotor securing tool is adapted to be coupled to the rim mounting surface to establish a distributed
load transfer interface with the automotive wheel assembly whereby the operational impact load
is substantially uniformly transferred to the rim mounting surface.

A3

15 13. (AMENDED) The apparatus according to Claim 10, wherein the interchangeable
rotor securing tool is adapted to be coupled to the rim mounting surface to establish a distributed
load transfer interface with the automotive wheel assembly whereby the operational impact load
is substantially uniformly transferred to the rim mounting surface.
